

THE BEAUTY CHAIN

Spread the cost of your treatments, Interest Free!

We're offering our clients the opportunity to spread the cost of their **Semi Permanent Make-up, Laser Lipo and Microdermabrasion** treatments over three affordable payments - interest free! There are no extra costs and no lengthy forms to fill out - just the chance to have the great treatments you deserve a little sooner than you may have thought.

HOW IT WORKS

Simply divide the cost of your treatments into three equal payments and our direct debit software will do the rest. The first payment is due at the time of your treatment, the second payment is due one month later and the last payment is due one month after that.

For example, let's say that your treatments cost a total of £99. This would mean three payments of £33. You'd pay the first payment when you have your treatment, the second payment a month later and the final £33 a month after that - making the total amount repayable £99 at 0% APR.

There's **no interest and no charges** - just a simple form to complete and, of course, it's completely confidential

Many of our clients take advantage of this great offer - why don't you?
